

on the GREEN

A weekly publication for Gallaudet staff and faculty

January 14, 1985 Vol. 15 No. 13

Bob Gotwals, an instructor in the Science Department at the Northwest Campus, speaks to students from Shepherd Elementary School who visited the Northwest Campus for a program on deaf awareness.

Program offered for young scholars

The Honors Program and Pre-College Programs will co-sponsor a new program this summer for talented and gifted deaf adolescents.

The program, known as the Gallaudet Young Scholars Program, is a four-week course open to deaf adolescents between the ages of 15 and 17.

Scheduled for June 30 to July 26, the course will explore the nature, function and role of the sun.

Classroom study, workshops and field trips will enable students to make the most of resources both at Gallaudet and in the Washington, D.C. area. For example, participants will visit the Goddard Space Flight Center and will get a behind-the-scenes look at the workings of the Smithsonian Institution.

Faculty experienced in working with deaf adolescents will use solar studies to help students develop the critical

thinking and problem solving skills needed by scientists as they satisfy their curiosity about events in the universe.

The program is designed to offer students an educational challenge in an atmosphere of intellectual stimulation and friendship. A high degree of motivation and self-discipline will be required to complete the daily assignments, according to Richard Meisegeier, director of the program.

"Gallaudet College has made a commitment to meet the needs of talented and gifted deaf students, who are often overlooked in general programs for the gifted," Meisegeier said.

Future Gallaudet Young Scholars Programs are planned and will focus on different scholarly topics.

Scholarships are available for the program. For more information on entrance requirements, costs and scholarships, contact Richard Meisegeier.

SLIGE classes to begin Jan. 21

Classes in Sign Language Instruction for Gallaudet Employees (SLIGE) will begin on Jan. 21 and continue through April 18. The schedule for classes is as follows.

Beginning I instruction will be offered Tuesdays and Thursdays from 8:30 to 10 a.m. in LW 44 of the Learning Center.

Two sections of Beginning II classes will be offered—one on Tuesdays and Thursdays from noon to 1:30 p.m. and the other on Mondays and Wednesdays from 10 to 11:30 a.m. Both sections will meet in LE 13 of the Learning Center.

The Intermediate I class will meet Tuesdays and Thursdays from 1 to 2:30 p.m. in LE 13 of the Learning Center.

Gallaudet to host National Issues Forum on environmental protection

Gallaudet College next month will host one of three National Issues Forums being conducted in Washington, D.C. this year.

As a member of the Consortium of Universities, Gallaudet is coordinating this series for the second year under the direction of Roslyn Rosen, dean of the College for Continuing Education.

The public forums, nationally sponsored by the Domestic Policy Association (DPA), will give area residents and the campus community an opportunity to discuss three major issues—environmental protection, the changing workplace and the cost of health care. The forum on environmental protection—entitled "Difficult Choices About Environmental Protection"—will be held at Gallaudet Saturday, Feb. 9.

Discussion on environmental protection will focus on topics such as environmental hazards and hazardous waste. Consider: In California recently the chemical malathion was sprayed to destroy the crop-damaging Medfly. While the spraying averted an agricultural disaster, it damaged the finish on thousands of cars. What did malathion do to humans who were exposed to it? Did saving crops and posing a potential health risk present an acceptable trade-off?

In another incident, a chemically contaminated ground well was condemned in 1979 in Woburn, MA. Soon after, 11 children who lived within a half mile of the site developed leukemia. Five years later, of more than 500 hazardous waste sites considered to be the most dangerous by the Environmental Protection Agency, only six have been cleaned up safely. Who is responsible? Where should

waste be stored? Should taxpayers or industry pay the staggering costs for cleanups? What are the future risks involved?

The forum at Gallaudet will be held Feb. 9 from 9 a.m. to noon at "Ole Jim."

Four of the most prominent experts in the environmental field will attend the forum. John Skinner, director of the Office of Solid Waste for the U.S. Environmental Protection Agency, and Kathy Cudlipp, chief counsel for the U.S. Senate Environment and Public Works Committee, will be panel participants. John McCormick, director of the Toxic and Pesticides Project at the Environmental Policy Institute, and Edward Williams, director of Environmental Analysis for the U.S. Department of Energy, will also make presentations during the day.

Following the presentations, the remainder of the forum will be devoted to a question and answer period and open discussion. At the conclusion of the forum participants will complete a questionnaire seeking information on personal preferences for the choices faced in solving environmental problems. Similar questionnaires will be distributed this year to some 60,000 persons who will attend National Issues Forums in 46 states.

Results of the questionnaires will be presented to policy makers during a culminating national conference in April.

The John F. Kennedy Presidential Library Conference will bring together representative citizens from forums throughout the country to meet and share results with senior level policy makers.

The Domestic Policy Association is a non-partisan voluntary network of institutions—colleges and universities, libraries, service clubs, membership groups and civic organizations—that bring citizens together to discuss three major issues each year. The DPA has grown from a membership of 25 organizations in 1982 to more than 90 convening institutions nationwide.

In addition to the environmental forum at Gallaudet, two other forums will be held in Washington next month.

"Jobs and the Jobless in a Changing Workplace" will be the topic of the second forum to be held at the University of the District of Columbia on Feb. 16. Panelists for the morning forum have not yet been announced.

"The Soaring Cost of Health Care" will conclude the forum series and will be offered at The Catholic University of America on Feb. 23. Featured speakers will include medical and health care

Library Bits & Pieces

New equipment

by C. Burnelle Ray

During the winter recess the College library received three pieces of equipment which should help serve patrons more efficiently.

The library now has two new Xerox 1045 copiers. Both make excellent copies and should help ease the frustration experienced by library patrons in the fall.

As with the other machines, 11- or 14-inch copies can be made, change is provided and adjustment can be made for light originals. If the copy is not ready, it will say "warming up—please wait." When it is ready, it will say "ready to copy." There are instructions on the left side of the machine.

There are two differences. First, each time you put money into the machine, you must first select the paper desired, then push the "start" button. In addition, the copy pick-up tray is located on the left side of the machine.

Copies still cost five cents a page. If you have any questions or need help, see Steven Frank in room ME11 near the Middle Level copy machine or ask at the A-Media Desk near the Lower

Level machine.

The library received another machine last month—the OCLC M300 Workstation. It is an IBM personal computer to which OCLC has added special hardware and software features to allow the cataloger to access the OCLC On-Line System.

The workstation is used by the Technical Services staff for handling inter-library loans and processing materials. It allows the Technical Services staff to batch transactions and perform searching, updating and printing functions more efficiently than was possible with the older model terminal. It speeds up the search process and makes it more consistently accurate. We already have the separate module for interlibrary loan and will soon be receiving other modules.

With the OCLC M300 and its separate modules, patrons should find books on the shelves much sooner than before.

Adding these three pieces of equipment is one way in which the College library is trying to serve the campus community more efficiently. We hope you enjoy the benefits.

Literary Society to meet on campus Jan. 18

Richard Phillips and his wife, Ruth, will be the featured speakers at this month's meeting of the National Literary Society of the Deaf scheduled for Jan. 18 on campus. The Phillips will discuss their one-month trip to Africa taken last October. During their presentation, they will share slides and mementoes from the trip—which included a cruise of the Nile River and a 10-day safari trek in Kenya.

The program is open to the public

and will be held in Room 251 of HMB beginning at 8 p.m.

Literary meetings are held on the third Friday of the month during the academic year.

Speakers at last month's meeting included Edward Corbett, director of the National Academy, Howard Busby, assistant dean of the School of Preparatory Studies, and Mary Sue Boxer, a teacher at the Maryland School for the Deaf in Frederick.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Research at x5030 (voice or TDD).

Deadline Program

1/28/85	ED: Field Initiated Research Projects
1/30/85	ED: Law-Related Education Program
2/1/85	NIA: Aging Research
2/1/85	DCCHC: The Meaning of Work; Humanities and Women; Humanities and Urban Life; Humanities in the Schools
2/15/85	ED: Enhancing Instructional Program Options Projects
3/1/85	NIHR: Innovation Grants
3/1/85	NCHSR: Health Care Technology Research
3/1/85	NIA: Older People and Social Institutions
3/1/85	NIOSH: Research and Demonstration Grants
3/1/85	NIMH: Child Mental Health Research/Training

Adolescent family life

The Public Health Service, Office of Adolescent Pregnancy Programs, invites applications for grants to investigate adolescent family life.

Awards ranging from \$10,000 to \$20,000 will be made to new investigators and grants from \$20,000 to \$100,000 awarded to established investigators.

Areas to be funded are: adolescent mothers' knowledge of child development and attitudes toward child rearing; social and emotional development of infants born to adolescent mothers; and impact of pregnancy or child rearing on the psychological development of the adolescent mother.

Applications are due April 15. For more information, contact the Office of Sponsored Research at x5030 or the Office of Adolescent Pregnancy Programs at 245-7473.

Floyd Holt, director of the Department of Safety and Security, presents a director's award to Marcy Tapscott of the Washington, D.C. police department. Tapscott served as chairman of the recent Campus Law Enforcement Academy of the District of Columbia, which was held on campus. E. Allen Nowell, who served as the coordinator of the Academy, looks on.

Recreation Office offering exercise programs tailored to individual needs

by Gina Oliva

During the holiday season many of us make what we call "New Year's resolutions." Often the content of these resolutions has to do with self-improvement and thus health concerns are often at the helm. Traditionally this has been related primarily to the overindulgence in food and drink during these days of celebration. We eat, drink and are merry and tomorrow we diet, as the well known joke goes.

It is not uncommon, however, for behaviors like smoking, nail-biting and saying "yes" to too many requests for involvement to also be the subject of New Year's resolutions.

Invariably, the habits we want to change are related to stress. It is important to understand that often we cannot control those elements in our lives which cause us to feel stressed but we do have the power to change the way we react to stress both in our feelings and in our behavior.

The first step in self-improvement or self-care in the health area is to recognize that there is room for improvement. The second step is to take inventory of your habits, your ways of dealing with stress, to see where changes might be made. It is important to proceed slowly, calmly and with confidence, as any drastic change in itself can be stressful—even where such change is in a desired direction.

Two of the easiest areas with which to begin are diet and leisure activities.

The Office of Intramurals and Campus Recreation can help with leisure activities. The Office is charged with providing a myriad of opportunities for the development of a personal exercise program by each employee and student at Gallaudet College.

Individual consultation is available for those starting or reevaluating a program and an ongoing effort is made to assess and meet varied needs. During

Booklet distributed

The Division of Student Affairs has distributed a Student Development Programs Calendar/Catalog for the 1984-85 academic year.

The booklet provides students with a calendar and description of programs and activities planned for the school year. The booklet is divided into three sections: a weekly planner; a catalog of student development programs; and Student Affairs services and resources.

the spring semester there will be exercises classes (dubbed "The Gallaudet Workout"), a racquetball league and tournament, weightlifting, tennis and speedwalking classes, noontime volleyball and soccer leagues, evening intramurals—which will include basketball, volleyball and softball—and a stress management and meditation group.

With these activities to choose from as well as with the open hours of the swimming pool, racquetball courts and track, there is no reason why every member of the campus community could not have a personal exercise program ranging from light but effective to very strenuous workout.

Registration for the activities will be held Feb. 4-8 during the lunch hour at both the Snack Bar at Ely Center and the College Dining Hall. More information, speedwalking classes, noontime volleyball and soccer leagues, evening intramurals—which will include basketball—month.

Most classes will begin the week of Feb. 11 and most will run through the middle of April.

For more information or to make suggestions, contact Gina Oliva, director of the Office of Intramurals and Campus Recreation, at x5365, x5362 or x5682.

Alumni Tours offers trips to Greece, Alaska

Alumni Tours of Gallaudet College is offering two upcoming tours—one to Greece and the other to Alaska. The tour of Greece will be held from May 23 through June 7 and the 12-day Alaska cruise and tour with a sign language interpreter July 19 through 30.

The tour of Greece will include visits to cultural institutions for deaf persons as well as meetings with deaf Greek citizens. The cost of \$1,975 will include: air transportation from New York to Athens and back on an Olympic Airways Boeing 747; hotel accommodations at first class hotels; American buffet breakfasts in Athens; a four-day classical tour of Greece with an English-speaking guide; continental breakfast and lunch daily during the four-day classical tour; a morning condensed Athens sightseeing tour; round trip airport and pier transfers, including portage; a four-day cruise and all meals during the cruise; and all service charges and taxes.

The base price of the Alaska tour from Vancouver, British Columbia, is \$1,895 plus \$47 taxes. The cruise will be aboard the Ms. Nieuw Amsterdam and will include seeing Ketchikan, Juneau, the Mendenhall Glacier, the Lynn Canal, Skagway, Whitehorse, Fairbanks and Anchorage.

For more information about the tours, call x5387 (TDD).

Gallaudet graduate performs in play

A graduate of Gallaudet College will star in a benefit performance of "Children of a Lesser God" to be presented later this month by the American School for the Deaf in West Hartford, CN, and the University of Hartford's Lincoln Theater.

Mary Colleen Vreeland will play the part of Sarah Norman in the Tony award-winning play which focuses on the relationship between a young deaf woman and a speech therapist who marry.

Vreeland played the part of Lydia in the Broadway production of "Children of a Lesser God" where she also understudied the role of Sarah. She later performed the role at the Cleveland Playhouse and in the national touring production of the show. She has also worked with the National Theatre for the Deaf in the title role of "The Sea Princess."

A graduate of Gallaudet, she also studied at the University of Vermont and the Eugene O'Neill Center with the National Deaf Playwrights Conference.

Also performing in the Jan. 29 benefit for students at the American School for the Deaf are Chuck Rosenow, Howie Seago and Lisa Patrice Hermatz.

"Ole Jim" lunch special

A lunch special—"A Day at the Slopes"—will be held Jan. 23 at "Ole Jim."

The menu will include Vail vegetable soup, St. Moritz French dip sandwich, buttered corn, a winter salad bar, lemon snow pudding, hot chocolate and coffee, tea or milk. The cost of the lunch is \$3.95.

The Telephone Pioneer Club of Washington, D.C., a volunteer organization of telephone workers, donated two sets of instructo phones to KDES for use in auditory training. Pictured, preschool teacher Heidi Dexheimer demonstrates to some club members how the phones will be used with preschoolers.

Among Ourselves

Sy DuBow of the National Center for Law and the Deaf addressed 150 participants of the Regional Conference on Postsecondary Education for Hearing Impaired Persons in Atlanta, GA.

His talk focused on the legal requirements of colleges to provide auxiliary aids and ways in which institutions can meet this responsibility.

Bob Bergan, a mathematics instructor at the Northwest Campus, completed two marathons in an eight-day period. He first ran in the New York marathon Oct. 28 and one week later ran in the Nov. 4 Marine Corps marathon in Washington, D.C.

T. Hoy Booker of the Department of Mathematics presented a paper Nov. 10 at the Naval Academy in Annapolis, MD. The paper, entitled "Applications of Jacobi's Method for Singular Value Decomposition," was presented during a meeting of the Mathematical Association of America.

B. Patrick Cox presented a paper Nov. 16 at the American Speech-Language-Hearing Association Convention in San Francisco, CA. His paper was entitled "Minimal Auditory Capabilities Test: Test-Retest

Characteristics for Hearing Impaired Listeners."

Edward Corbett and Nancy Popovich of Gallaudet gave presentations at the Ohio Association of the Deaf Leadership Workshop held Nov. 9-11 in Columbus, OH.

Corbett, director of the National Academy, and Popovich, coordinator of Residence Education, gave an orientation to the workshop and spoke on topics such as "Deafness—Let's Face It," "Understanding Self and Others," "Leadership Behaviors and Dynamics," "Human and Organizational Dynamics," "Leading a Meeting" and "Applications of Newly Learned Skills."

Barbara Williams of the Office of Cued Speech Programs gave an in-service training program about cued speech Dec. 3 and 4 to 22 teachers and speech therapists at a school for hearing impaired students in New Jersey.

Congressman David E. Bonior (D-MI), a member of the Gallaudet College Board of Trustees, co-authored a book entitled "The Vietnam Veteran: A History of Neglect."

Kee Ho Lee, left, and Jeffrey Johnson, both television studio engineers with Gallaudet College Television, are pictured at work.

Announcements

• Sign language artist Susan Freundlich will join performer Si Kahn for a concert Jan. 19 at the Commerce Department. Kahn, an author and songwriter, will perform his own material at the 8 p.m. benefit concert for Grassroots Leadership, Inc.

In addition to interpreting Kahn's music, Freundlich will perform her own program of poetry, dance and sign.

The pair will perform at the Herbert Hoover Auditorium in the Commerce Department Building at 14th between Pennsylvania and Constitution Avenues.

Tickets for the performance are on sale at Ely Center. Tickets will be sold for \$7 in advance and \$8 at the door.

• The Super Bowl, scheduled for later this month, will be closed captioned—with the pre-game show, the game itself and the post-game analysis to be captioned by the National Captioning Institute (NCI).

"Super Bowl '85" is scheduled to air Sunday, Jan. 20 from 4 to 10 p.m. on ABC-TV. The six-hour block of programming includes the game plus a pre-game show, season highlights and excerpts from past Super Bowls.

Kentucky Fried Chicken and Ford Motor Company are co-sponsoring the closed captioning of the football game and Kentucky Fried Chicken is also funding the pre- and post-game closed captioned broadcasts.

National Forum

continued from page 1
professionals from the Veterans Administration, the University of Pennsylvania's Teaching Nursing Home Project and the School of Nursing at Catholic University.

Registered participants at each forum will receive a 35-to-40-page issue booklet on the forum topic. Each booklet discusses current policy questions and various options to be presented during the forum. To prepare for the discussions, participants are encouraged to register and receive the issue booklets prior to the forum.

A registration fee of \$3 per forum includes the issue booklet, a discussion guide, panel presentations and refreshments. Proceedings from the Presidential Library Conference will be available this spring.

For registration information, contact the College for Continuing Education at x5597. Registration will continue 8:30-9 at "Ole Jim" the morning of the Feb. 9 forum.

SLIGE classes

continued from page 1
Center and the Intermediate II class will meet Mondays and Wednesdays from 1 to 2:30 p.m. in CB 9 of the West Office Building.

The Advanced I class will be held on Tuesdays and Thursdays from 2:30 to 4:00 p.m. in LW23 of the Learning Center. The Advanced II class will meet on Mondays and Wednesdays from 2:30 to 4 p.m. in CB 9 of the West Office Building.

A fingerspelling class will be held Tuesdays and Thursdays from 10 to 11 a.m. in LW 44 of the Learning Center.

Anyone unsure as to what level class to take should contact Lynn Jacobowitz at x5630.

Inclement weather policy, procedures

In order to help clarify policies and procedures in effect during inclement weather, the College's inclement weather policy is printed below along with shuttle schedules used during inclement weather.

Policy:

The College recognizes the difficulties faced by employees commuting to work during severe inclement weather. However, due to its large residential component, the College is unable to totally suspend operations. If it should be necessary to close or alter operations at Gallaudet because of adverse weather conditions, the following procedures will therefore apply.

Procedures:

I. All faculty and staff are expected to report to work unless Gallaudet College in its entirety is announced "closed." In the event that MSSD and KDES only are announced "closed," this indicates that they are closed for students. In such instances, all faculty and staff are expected to work.

II. A decision to close Gallaudet College can be made only by the president. Announcements will be made on local radio and television stations.

Telephone procedures may be established within each unit or division. However, it is the employee's responsibility to ascertain by some method whether the College is closed.

III. In the event that the College is officially closed due to weather conditions, College and Pre-College faculty will make up days as scheduled in the school calendar. Staff will be granted administrative leave for such absences.

IV. The appropriate vice president will ensure that faculty contracts are fulfilled with respect to the number of days worked. Any days or classes missed due to inclement weather will be rescheduled.

V. During periods of inclement weather that result in an official College closing, all essential service personnel are expected to report to work. Essential employees include:

1. Department of Safety and Security personnel.

2. Utility Plant personnel.

3. Grounds crew.

4. Payroll and Bank personnel, when necessary to meet payroll schedule.

5. Repair and Maintenance personnel who perform emergency repairs. Such individuals will be notified in advance by the director of Maintenance and

Operations or the manager of Building Maintenance Services.

6. Nurses and doctors.
7. Resident advisers, resident assistants and head residents.

Unless precluded by collective bargaining agreements, essential personnel will receive eight hours of compensatory time off for each day that the College is officially closed. Overtime will be paid according to applicable collective bargaining agreements or College policy. Official College closings are not considered holidays for any purpose. Compensatory time off will not be granted to those who reside on campus and are therefore not affected by transportation or road conditions.

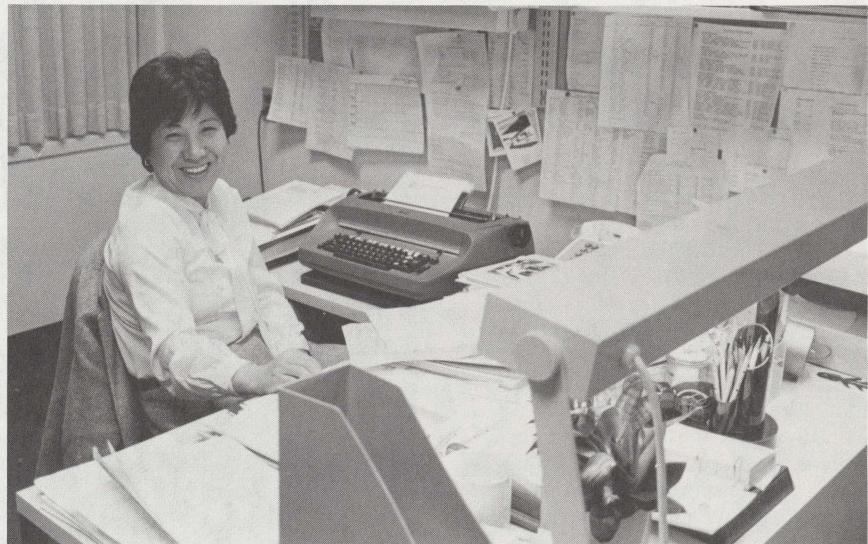

VI. In certain inclement weather situations, administrative leave may be extended to staff and faculty employees, either for late arrival or early departure, as determined by the president. Those staff personnel who do not report to work due to inclement weather must use annual leave or leave without pay for all work hours that are missed.

When late arrival procedures are announced, employees are still expected to arrive at work as close as possible to their normal starting time. Supervisors may deny administrative leave to subordinates who have not made a reasonable attempt to get to work. Criteria to be used in making such a decision will include distance between the employee's home and Gallaudet and the success other employees similarly situated had in being able to report to work.

Shuttle service:

The Transportation Department will begin all shuttle service one-half hour after receiving word from the Office of the President that the College is closing early. Shuttle service will continue for approximately one and one-half hours beyond the official closing time, depending on road and weather conditions. There will be no individualized service for those shuttle passengers electing to remain on campus for their normal working hours or who have inflexible connecting schedules with other transportation systems which prohibit early departures.

Questions regarding early dismissals should be directed to the appropriate administrator in charge of your area and not to the Transportation Department.

Theresa Chang is a technical services librarian at the School Preparatory Studies at the Northwest Campus.
